About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by EQT Responsible Entity Services Limited ("EQT RES", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the Nanuk New World Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms) contained in the Nanuk New World Fund Reference Guide ("Reference Guide"), which forms part of this PDS. You should consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The offer to which this PDS relates is only available to Wholesale Clients (as defined in the Reference Guide) receiving this PDS (electronically or otherwise) in Australia and Wholesale Investors (as defined in the Reference Guide) receiving this PDS (electronically or otherwise) in New Zealand who have completed a Wholesale Investor Certificate attached to the Application Form. New Zealand investors must read the Nanuk New World Fund New Zealand Wholesale Investors Fact Sheet. All references to dollars or "\$" in this PDS are to Australian dollars.

This PDS has not been, and will not be, lodged with the Registrar of Financial Service Providers in New Zealand, and is not a Product Disclosure Statement under the Financial Markets Conduct Act 2013 (NZ). New Zealand Wholesale Investors wishing to invest in the Fund should be aware that there may be different tax implications of investing in the Fund and should seek their own tax advice as necessary.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the US Securities Act of 1933 as amended ("US Securities Act"). EQT RES may vary this position and offers may be accepted on merit at EQT RES' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by EQT RES and may not be offered or sold in the US to, or for, the account of any US Person except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial advice tailored to your personal circumstances and consider whether the information in this PDS is appropriate for you in light of those circumstances.

1. About EQT Responsible Entity Services Limited

The Responsible Entity

EQT Responsible Entity Services Limited

EQT Responsible Entity Services Limited (formerly called OneVue RE Services Limited) ABN 94 101 103 011, AFSL 223271 ("EQT RES"), a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's Responsible Entity and issuer of this PDS.

EQT RES' responsibilities and obligations as the Fund's Responsible Entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. EQT RES has appointed Nanuk Asset Management Pty Limited as the investment manager of the Fund. EQT RES has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Nanuk Asset Management Pty Limited

Nanuk Asset Management Pty Limited "Nanuk") is a specialist investment manager whose investment activities are focused on the broad global themes of environmental sustainability and resource efficiency. Nanuk is responsible for managing the Fund's investments.

Nanuk was founded in 2009 with the objective to develop leading global investment expertise related to the long-term theme of environmental sustainability and to seek to provide its investing clients with attractive returns by accessing the various growth opportunities and market inefficiencies associated with this theme.

Nanuk's investment approach is based on the belief that the natural tension between economic growth and environmental sustainability is resulting in long term structural changes in many industries and that these changes provide a large and long term source of investment opportunities that can be accessed through sound, intelligent research.

Nanuk is also investment adviser to the Nanuk Global Alpha Fund, a Cayman Islands domiciled long-short global equity fund launched in 2011.

2. How the Nanuk New World Fund works

The Fund is a registered managed investment scheme and governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive benefits of an investor. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in this PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS or by making an application through the mFund settlement service ("mFund") by placing a buy order for units with your licensed broker. The minimum initial investment amount for the Fund is \$50,000 for direct investors who are Wholesale Clients or Wholesale Investors, or \$25,000 if investing via mFund.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Nanuk New World Fund
RBC Investor Services Trust
GPO Box 4471
Sydney, NSW 2001
Australia

Please note that cash and cheques cannot be accepted.

If applying via mFund you will need to provide the application money directly to your licensed broker.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed additional investment form. The minimum additional investment into the Fund is \$25,000 for direct investors or \$20,000 if investing via mFund.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June. Distributions are calculated effective the last day of each accounting period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, withdrawal proceeds may be taken to include a component of distributable income.

Indirect investors should review their IDPS guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution paid if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Nanuk New World Fund New Zealand Investors Information Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Nanuk New World Fund
RBC Investor Services Trust
GPO Box 4471
Sydney, NSW 2001
Australia

Or sending it by fax to + 61 2 8262 5492

Or by making a withdrawal request through mFund by placing a sell order for units with your licensed broker.

The minimum withdrawal amount is nil. Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s) or if the withdrawal is received via mFund.

EQT RES will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account or, where the request is received via mFund, to the investor's licensed broker. However, the Constitution allows EQT RES to reject withdrawal requests and also to make payment up to 21 days after processing of a request (which may be extended in certain circumstances).

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.25%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

EQT RES reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund or where the Fund is not liquid (as defined in the Corporations Act), EQT RES can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times. When the Fund is not liquid, an investor can only withdraw when EQT RES makes a withdrawal offer to investors in accordance with the Corporations Act. EQT RES is not obliged to make such offers.

If you are an indirect investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Unit pricing discretions policy

EQT RES has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity the Fund will be subject to regular reporting and disclosure obligations. Investors would have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

EQT RES will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Nanuk New World Fund

The main features, characteristics and potential benefits of the Fund include:

- access to a diversified portfolio of predominantly listed global equity securities whose businesses contribute to and/or benefit from investment into the global secular themes associated with environmental sustainability and resource efficiency,
- access to Nanuk's investment management expertise and experience,
- access to investment opportunities and markets that may not be accessible to all investors, and
- regular unit pricing and liquidity based on daily redemption in normal circumstances.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Investment risk

This is the risk that the value of an investment may change or become more volatile, potentially causing a reduction in the value of the Fund and increasing its volatility. This may be due to, amongst many other things, changes in government policies, the Investment Manager's operations or management, the business environment or in perceptions of the risk of an investment. Various risks may lead to the issuer of an investment defaulting on its obligations and reducing the value of an investment to which the Fund has an exposure.

The Fund may hold securities with small or mid market capitalization that are less widely held, and trade less frequently and in lesser quantities such that their market prices often fluctuate more than the securities of companies with larger market capitalisations.

The Fund may also hold unlisted securities in limited circumstances. Although quotation on a regulated stock exchange may be anticipated, there remains a risk that such investments may not be quoted, making investments of this nature more difficult to realise. These securities are typically subject to lesser reporting requirements than listed stocks.

Focusing investments in countries, regions, sectors or companies, or in industries related to the secular theme of environmental sustainability may have high positive correlations to one another, creating more risk than a less correlated traditional global equity investment.

The Fund's focus on the broad themes of environmental sustainability and resource efficiency means that factors which influence these themes (such as government policy, regulation and technological development) may impact the Fund more so than traditional global equity investment. Assessment of relevant considerations, although professional and informed, has an element of subjectivity.

Market risk

This is the risk that an entire market, country or economy changes in value or becomes more volatile, including the risk that the country's credit rating is downgraded (which reduces the nation's perceived creditworthiness), the purchasing power of currency changes (either through inflation or deflation), and/or other market-wide factors, like economic growth or the unemployment rate, deteriorate (which can cause a reduction in the value of the Fund and increase its volatility).

Amongst many other things, adverse changes in economic, financial, technological, political or legal conditions, as well as natural and manmade disasters, conflicts and shifts in market sentiment, may potentially cause a reduction in the value of the Fund and increase its volatility.

International risk

The Fund provides investors with exposure to global equity markets, with no geographical or market defined constraints.

It is expected that the Fund's equity investment exposure will be held primarily in the developed markets of North America, Europe and Asia. The Fund may provide exposure to other regions or emerging markets.

Investing internationally in one of the major asset categories like global equities will include all the risks associated with that asset class, but will also include risks not associated with holding Australian investments such as currency risk. International investments may be more affected by political and economic uncertainties, lower regulatory supervision, movements in currency and interest rates and possibly more volatile, less liquid markets.

Emerging economies and markets are generally less sophisticated, with poorer reporting, governance and regulatory frameworks, and greater political, legal, liquidity and other risks as well as higher volatility.

Interest rate risk

This is the risk that changes in interest rates can have a negative impact on certain investment values or returns. Reasons for interest rates changes are many and include variations in inflation, economic activity, central bank (monetary) policies and government (fiscal) policies.

Derivatives risk

It is possible that the Fund may obtain investment exposure through derivatives but only if the Investment Manager considers that direct investment is not practicable and that the investment exposure available through derivatives is compelling. Derivatives may also be used to better manage some portfolio risks. Derivatives are not used to gear the Fund, nor are they used speculatively.

Derivatives are contracts between two parties that usually derive their value from the price of a physical asset or market index. Risks associated with derivatives include the possibility that the derivative position is difficult or costly to reverse, or that there is an adverse movement in the asset or index underlying the derivative or that the counterparties do not perform their obligations under the contract.

The Investment Manager manages the Fund with the intention that sufficient resources are available in a timely way to meet all derivatives obligations and counterparties are always leading financial institutions which the Investment Manager considers suitable.

Currency risk

The Fund's foreign currency exposure from investments in foreign currencies will typically remain unhedged.

The Investment Manager may, however, from time to time, seek to mitigate currency risk on specific investments within the portfolio, often called hedging, through over-the-counter foreign exchange contracts.

Hedging is not always successful, is not always used to offset all currency risk, and is sometimes not cost effective nor practical to use.

Unhedged or partially hedged international investments are fully or partially (as the case may be) exposed to the impact of currency movements in the Australian dollar.

Liquidity risk

This is the risk that your withdrawal requests cannot be met when you expect. This is because investments of the Fund may need to be sold to pay you your withdrawal proceeds. Depending on factors such as the state of the markets, selling investments is not always possible, practicable or consistent with the best interests of investors.

This is one of the reasons why the Fund's Constitution specifies limited circumstances where there could be a delay in meeting your withdrawal request.

Although you may sell your units privately (that is, transfer them), you may not be able to find a buyer or find a buyer at the price you want.

Information risk

We are committed to ensuring that your information is kept secure and protected from misuse and loss and from unauthorised access, modification and disclosure. We use the internet in operating the Fund and may store records in a cloud system. If stored overseas, different privacy and other standards may apply there.

Also, the internet does not always result in a secure information environment and although we take steps we consider reasonable to protect your information, we cannot absolutely guarantee its security.

You should read the important information in the Reference Guide under the "Additional risks" section before making an investment decision. Go to the Reference Guide at www.eqt.com.au/EQTRES. The material relating to risks may change between the time when you read this PDS and the day when you acquire the product.

5. How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund's performance objective is to provide investment returns which exceed the Fund's benchmark index return, after management fees, over the long term. The Fund's benchmark index is the FTSE Environmental Opportunities All Share Total Return Index, maintained by leading international financial services firm FTSE Russell. This index measures the performance of global companies that have significant involvement in environmental business activities including renewable & alternative energy, energy efficiency, water infrastructure and technology, waste management & technologies, pollution control, environmental support services, and food, agriculture & forestry. To be included in this index, FTSE Russell requires that companies have at least 20% of their business derived from environmental markets and technologies.

Nanuk believes that the companies represented in the benchmark index provide reasonable guidance as to the types of companies to which the Fund can be exposed. The actual holdings of the Fund and their weightings, however, may differ from those in the benchmark index. As a result, the Fund's returns, volatility and risk profile may also differ.

[c]See Section 6 for a description of management fees.

Benchmark

Minimum suggested time frame

The minimum suggested time frame for investment in the Fund is 5 years.

Risk level of the Fund

High

Investor suitability

This Fund may be suitable for investors who have a long term view and a high risk tolerance seeking exposure primarily to a diversified portfolio of listed global equity securities focusing on the broad themes of environmental sustainability and resource efficiency.

An investment in the Fund should be regarded as long term, and investors should invest for 5 years or longer.

The value of the Fund can move quickly and substantially. As such, it should be considered as a potentially volatile investment.

Remember that investing involves risk, and you can lose money as well as make money. Neither returns nor the money you invest in the Fund are guaranteed. It is strongly advised that you obtain professional advice before making any such investment.

Investment style and approach

The Investment Manager's approach is based on the belief that the natural tension between economic growth and environmental sustainability is resulting in long term structural changes in many industries, and that these changes provide a large and long term source of investment opportunities that can be accessed through sound, intelligent research.

Nanuk believes that increasing global investment in more sustainable products and services may benefit selected companies in these industries, and that investing in a selected portfolio of such companies has the potential to outperform global equities benchmarks over the longer term.

It is Nanuk's belief that equities often trade at significant premiums and discounts to their intrinsic value, and that this is particularly evident in industries undergoing structural changes driven by factors which include changing government policy and new technologies.

In managing this Fund, Nanuk's approach is to combine financial analysis with industry knowledge and insight to identify investments that Nanuk considers are mispriced and offer attractive risk-return characteristics.

Nanuk's investment approach is based on fundamental research, incorporating analysis at the 'top down' industry and 'bottom up' company levels.

Nanuk's focus is to identify investments that offer attractive risk-return characteristics through a combination of industry knowledge and company valuation. These are supported through:

- systematic and customised valuation models,
- industry research focused on understanding industry trends, the impact of changing government policy and changing supply-demand dynamics, and
- fundamental research focused on understanding the drivers of earnings growth, profitability, sustainability of returns and market, sector and company-specific risks.

Asset allocation

The target asset exposure ranges for the Fund are:

- Global equities: 80-100%
- Cash and investment grade securities: 0-20%

In cases where the Fund temporarily moves beyond these ranges (for example, because of large market movements), Nanuk will endeavor to bring the Fund back within those ranges as soon as is practicable.

International exposure

The Fund provides investors with exposure to global equity markets, with no geographical or market defined constraints. It is expected that the Fund's equity investment exposure will be held primarily in the developed markets of North America, Europe and Asia.

The Fund may also provide exposure to other regions or emerging markets.

With global exposure also comes exposure to the impact of currency movements – see Currency risk in Section 4.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

The Fund is wholly focused on investing in listed global companies whose business activities are contributing to or benefiting from the broad themes of environmental sustainability and resource efficiency. The Fund employs a "core" sustainable investment approach, one which is sustainably-themed, utilises both positive and negative screening and integrates environmental, social and governance (ESG) factors in the decision making process. The Fund embraces social & ethical values and norms, and provides exposure to companies delivering diversified access to basic needs underpinning the UN's Sustainable Development Goals.

Environment, social, ethical and governance considerations are taken into account in the selection of investments for the Fund. Positive screening associated with environmental (E) factors is intrinsic to the Fund's sustainably-themed investment focus. Negative screening associated with environmental (E), ethical and social (S) factors is applied through an exclusions framework to preclude investment in industries and companies which do not align with Nanuk's values and sustainability focus.

The exclusions framework is formalised around the following areas:

- Climate Change, Fossil Fuels & Environment
- Weapons
- Ethical Values & Human Rights

Exclusions include companies with a material proportion of their primary business activities in related industries, including coal and coal-based energy, oil & gas, uranium, adult entertainment, alcohol, gambling, nuclear weapons, anti-personal landmines & cluster munition and tobacco. Companies which, in Nanuk's view, are known to contravene international norms associated with human rights, labour standards and anti-corruption are also excluded.

Nanuk believes that there is a strong link between corporate governance (G) and long-term shareholder value creation. The alignment of interests between company directors, management and common shareholders is a primary consideration in understanding and assessing company valuation and risk. Nanuk has identified five key aspects of governance it considers material in understanding this alignment of interest – ownership, board & management structure, compensation, accounting and corruption.

Nanuk's Responsible and Sustainable Investment Statement is available on its website (www.nanukasset.com) and provides further detail of the Fund's approach to responsible investment.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following table can be used to compare costs between this and other simple managed investment schemes. Fees and costs are deducted from the assets of the Fund and reduce the investment return to investors. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 1.20% p.a. of the NAV of the Fund ²
	Indirect costs: 0.01% p.a. of the NAV of the Fund ³

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below.

³ The indirect costs are calculated and incorporate estimated amounts with reference to the relevant costs incurred during financial year ended 30 June 2018. See "Indirect costs" below for more information.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the assets.

The management fees of 1.20% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued monthly and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management costs shown above do not include extraordinary expenses (if they are incurred in future), including litigation costs and the costs of convening members meetings.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through Buy/Sell Spreads).

Indirect costs

Indirect costs include fees and management costs (if any) arising from underlying funds and a reasonable estimate of the cost of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy. Indirect costs are reflected in the unit price of the Fund and borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

The estimated components of the Fund's indirect costs are based on the financial year ended 30 June 2018. Actual indirect costs for future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on EQT RES' website at www.eqt.com.au/EQTRES where they are not otherwise required to be disclosed to investors under law.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy/Sell Spread is paid into the Fund and not paid to EQT RES or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$50,000 is \$125 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread.

During the financial year ended 30 June 2018, the total transaction costs for the Fund were 0.55% of the NAV of the Fund, of which 86% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 0.08% p.a.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. EQT RES has the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law. In most circumstances, the Constitution defines the maximum fees that can be charged for fees described in this PDS.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors.

Payment to IDPS Operators

Subject to the law, annual payments may be paid to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor.

mFund

Warning: if you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Nanuk New World Fund

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every \$5,000 you put in, you will be charged \$0
Plus Management Costs Comprising:	1.21% p.a.	And , for every \$50,000 you have in the Fund you will be charged \$605 each year comprising:
Management fees:	1.20% p.a.	\$600
Indirect costs:	0.01% p.a.	\$5
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, then you would be charged fees of: \$605* What it costs you will depend on the fees you negotiate.

*This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only. Indirect costs are not a fee earned by or paid to the Responsible Entity or the Investment Manager.

Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: Additional fees may be paid to a financial adviser if you have consulted a financial adviser. You should refer to the Statement of Advice provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on your investment in the Fund.

Further reading...

You should read the important information in the Reference Guide under "Additional information on fees and costs" about the fees and costs associated with investing in the Fund before making an investment decision. Go to the Reference Guide which is available at www.eqt.com.au/EQTRES. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT"), are attributed to them.

Further reading

If applicable, you should read the important information in the Reference Guide under "Other important information" about AMIT before making an investment decision. Go to the Reference Guide which is available at www.eqt.com.au/EQTRES. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and send your completed Application Form to:

Nanuk New World Fund
RBC Investor Services Trust
GPO Box 4471
Sydney, NSW 2001
Australia

If applying via mFund you will need to provide the application money directly to your licensed broker.

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Cooling-off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients in Australia and Wholesale Investors in New Zealand.

Indirect investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in a fund by the IDPS. The right to cool off in relation to a fund is not directly available to an indirect investor. This is because an Indirect Investor does not acquire the rights of a unit holder in a fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in a fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to a fund and any rights an indirect investor may have in this regard.

Complaints resolution

EQT RES has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Phone: 1300 133 472
Post: Equity Trustees Limited
GPO Box 2307, Melbourne VIC 3001
Email: compliance@eqt.com.au

We will acknowledge receipt of the complaint as soon as possible and in any case within 3 days of receiving the complaint. We will seek to resolve your complaint as soon as practicable but not more than 45 days after receiving the complaint.

If you are not satisfied with our response to your complaint, you may lodge a complaint with the Financial Ombudsman Service ("FOS") or from 1 November 2018, direct the complaint to the Australian Financial Complaints Authority ("AFCA"), which will replace FOS.

Contact details are:

Online: www.fos.org.au or www.afca.org.au
Phone: FOS on 1800 367 287 or AFCA on 1800 931 678
Email: info@fos.org.au or info@afca.org.au
Post: GPO Box 3, Melbourne VIC 3001.

The external dispute resolution body is established to assist you in resolving your complaint where you have been unable to do so with us. However, it's important that you contact us first.

9. Other information

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the Investment Manager of the Fund; and
- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager and the Custodian have not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. Neither the Investment Manager, the Custodian nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which it has provided its written consent to EQT RES for inclusion in this PDS.

mFund Settlement Service

You must use a mFund accredited and licensed broker to facilitate your transactions on mFund. Your chosen broker may charge you additional fees which are not outlined in the Fees and Costs section of this PDS.

Further reading

You should read the important information in the Reference Guide "Other important information" section about:

- your privacy;
- the Constitution for the Fund;
- the Anti-Money Laundering and Counter-Terrorism Financing laws ("AML/CTF laws");
- NAV for the Fund;
- Indirect Investors;
- Information on underlying investments;
- Foreign Account Tax Compliance Act ("FATCA"); and

Section 8 – Declarations – ALL investors MUST complete

In most cases the information that you provide in this form will satisfy the AML/CTF Act, the US Foreign Account Tax Compliance Act ('FATCA') and the Common Reporting Standards ('CRS'). However, in some instances the Responsible Entity may contact you to request further information. It may also be necessary for the Responsible Entity to collect information (including sensitive information) about you from third parties in order to meet its obligations under the AML/CTF Act, FATCA and CRS.

When you complete this Application Form you make the following declarations:

- I/We have received the PDS/IM and made this application in Australia (and/or New Zealand for those offers made in New Zealand).
- I/We have read the PDS/IM to which this Application Form applies and agree to be bound by the terms and conditions of the PDS/IM and the Constitution of the relevant Fund/Trust in which I/we have chosen to invest.
- I/We have considered our personal circumstances and, where appropriate, obtained investment and/or taxation advice.
- I/We hereby declare that I/we are not a US Person as defined in the PDS/IM.
- I/We acknowledge that (if a natural person) I am/we are 18 years of age or over and I am/we are eligible to hold units in the Fund/Trust in which I/We have chosen to invest.
- I/We acknowledge and agree that Equity Trustees has outlined in the PDS/IM provided to me/us how and where I/we can obtain a copy of the Equity Trustees Group Privacy Statement.
- I/We consent to the transfer of any of my/our personal information to external third parties including but not limited to fund administrators, fund investment manager(s) and related bodies corporate who are located outside Australia for the purpose of administering the products and services for which I/we have engaged the services of Equity Trustees or its related bodies corporate and to foreign government agencies for reporting purposes (if necessary).
- I/we hereby confirm that the personal information that I/we have provided to Equity Trustees is correct and current in every detail, and should these details change, I/we shall promptly advise Equity Trustees in writing of the change(s).
- I/We agree to provide further information or personal details to the Responsible Entity if required to meet its obligations under anti-money laundering and counter-terrorism legislation, US tax legislation or reporting legislation and acknowledge that processing of my/our application may be delayed and will be processed at the unit price applicable for the Business Day as at which all required information has been received and verified.
- If I/we have provided an email address, I/we consent to receive ongoing investor information including PDS/IM information, confirmations of transactions and additional information as applicable via email.
- I/We acknowledge that Equity Trustees does not guarantee the repayment of capital or the performance of the Fund/Trust or any particular rate of return from the Fund/Trust.
- I/We acknowledge that an investment in the Fund/Trust is not a deposit with or liability of Equity Trustees and is subject to investment risk including possible delays in repayment and loss of income or capital invested.
- I/We acknowledge that Equity Trustees is not responsible for the delays in receipt of monies caused by the postal service or the investor's bank.
- If I/we lodge a fax application request, I/we acknowledge and agree to release, discharge and agree to indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from any fax application.
- If I/we have completed and lodged the relevant sections on authorised representatives, agents and/or financial advisers on the Application Form then I/we agree to release, discharge and indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from Equity Trustees acting on the instructions of my/our authorised representatives, agents and/or financial advisers.

- I am/We are a Wholesale Investor and am/are therefore eligible to hold units in the Fund/Trust; and
- I/We have not:
 - Offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Fund/Trust;

- Granted, issued, or transferred, and will not grant, issue, or transfer, any interests in or options over, directly or indirectly, any units in the Fund/Trust; and
- Distributed and will not distribute, directly or indirectly, the PDS/IM or any other offering materials or advertisement in relation to any offer of units in the Fund/Trust, in each case in New Zealand, other than to a person who is a Wholesale Investor; and
- I/We will notify Equity Trustees if I/we cease to be a Wholesale Investor; and
- I/We have separately provided a signed Wholesale Investor Certification located at the end of this Application Form.
- All references to Wholesale Investor in this Declaration are a reference to Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. **Exempt investors should attach a copy of the certificate of exemption.** For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read, agree to and make the declarations above
